Inside Out (2015)

Riley is a cheerful girl. She has five emotional commissioners in her brain. Two of the emotional commissioners Joy and Sadness accidentally are involved in an accident in the other areas of the brain. When Joy isn't at the head of the brain, other emotional commissioners can't control the situations so they make things messy. Finally, when they come back, Joy thinks Sadness has her place in the brain.

I loved this movie because it was very meaningful.

Happy Feet

Emperor penguins are born to sing, all except Mumble. who is born to dance...tap dance. Such-un-penguin-like behavior

eventually gets Mumble kicked out of Emperor Land and into the big cold world. Joining with Adelie Amigos and Lovelace, Mumble embarks on an epic journey and ultimately proves that by being true to yourself, you can make all the difference in the world!

I thought that movie can let you know if your belief is strong, you can make a lot of differences in the world.
